We have begun OUR GALLANT JOURNEY. For some of us, it will be a hard journey; for others, a long one; but for all of us, it will be a journey through experiences and filled with accomplishments. Of course, not all of us can do great things; perhaps none of us will, but we will succeed in the smaller and perhaps equally important tasks.

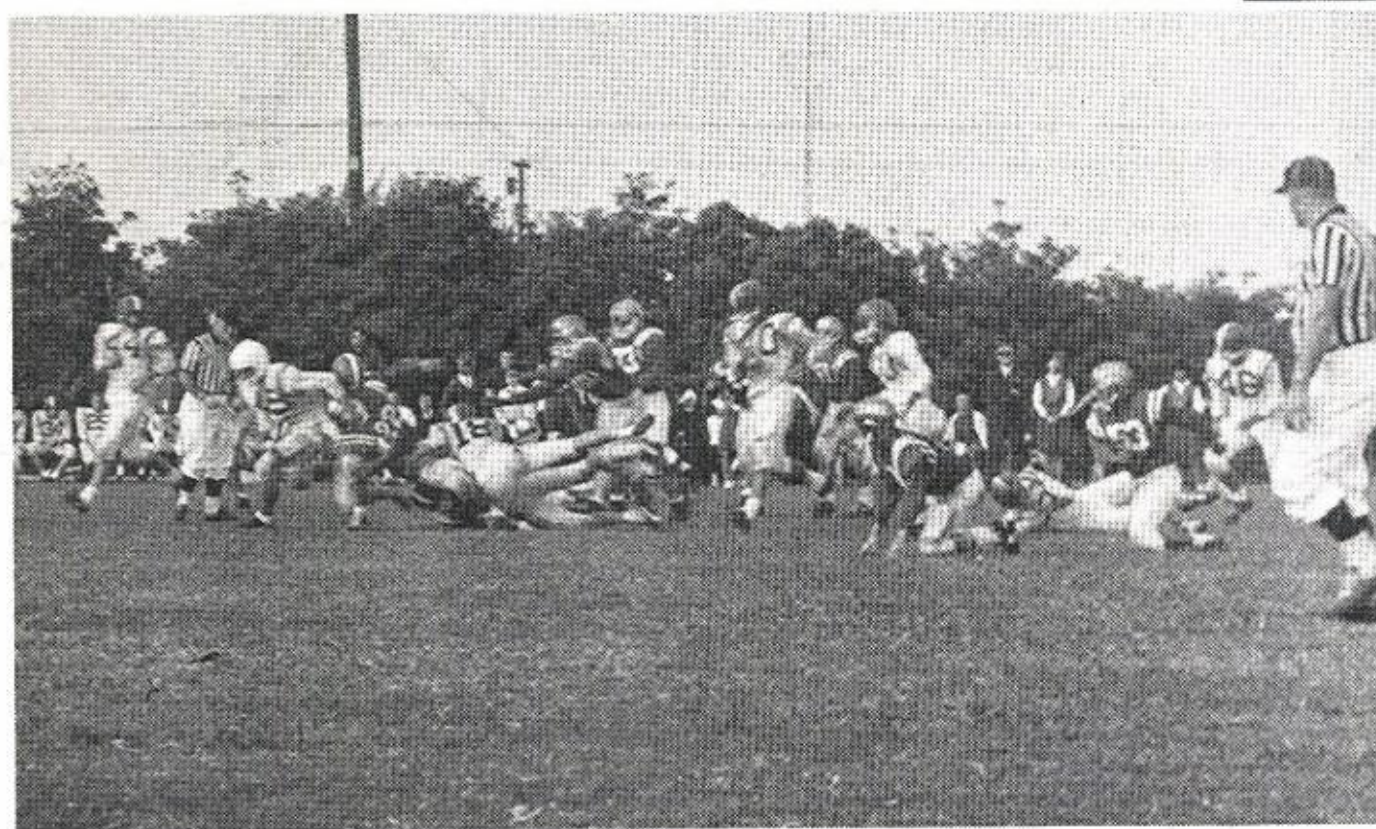

Yes, we will succeed. We will succeed because we have a very precious thing. We have knowledge. We are not geniuses, but we have learned. We have learned to live and to love; we have found the joy of life and a reason for existence. Our knowledge comes to us not from textbooks only, but also from experiences. Our lives have been touched with the joy of helping others, with outside interests with activity in clubs and other organizations. Through these experiences we have learned much.

The most important part of our journey lies ahead. If we are kind, it is because we have been taught to be kind; if we are generous, it is because we have been taught to be generous; if we are now prepared for the rest of our journey, it is because through the light of God and the kindness and generosity of His workers, we have been prepared.

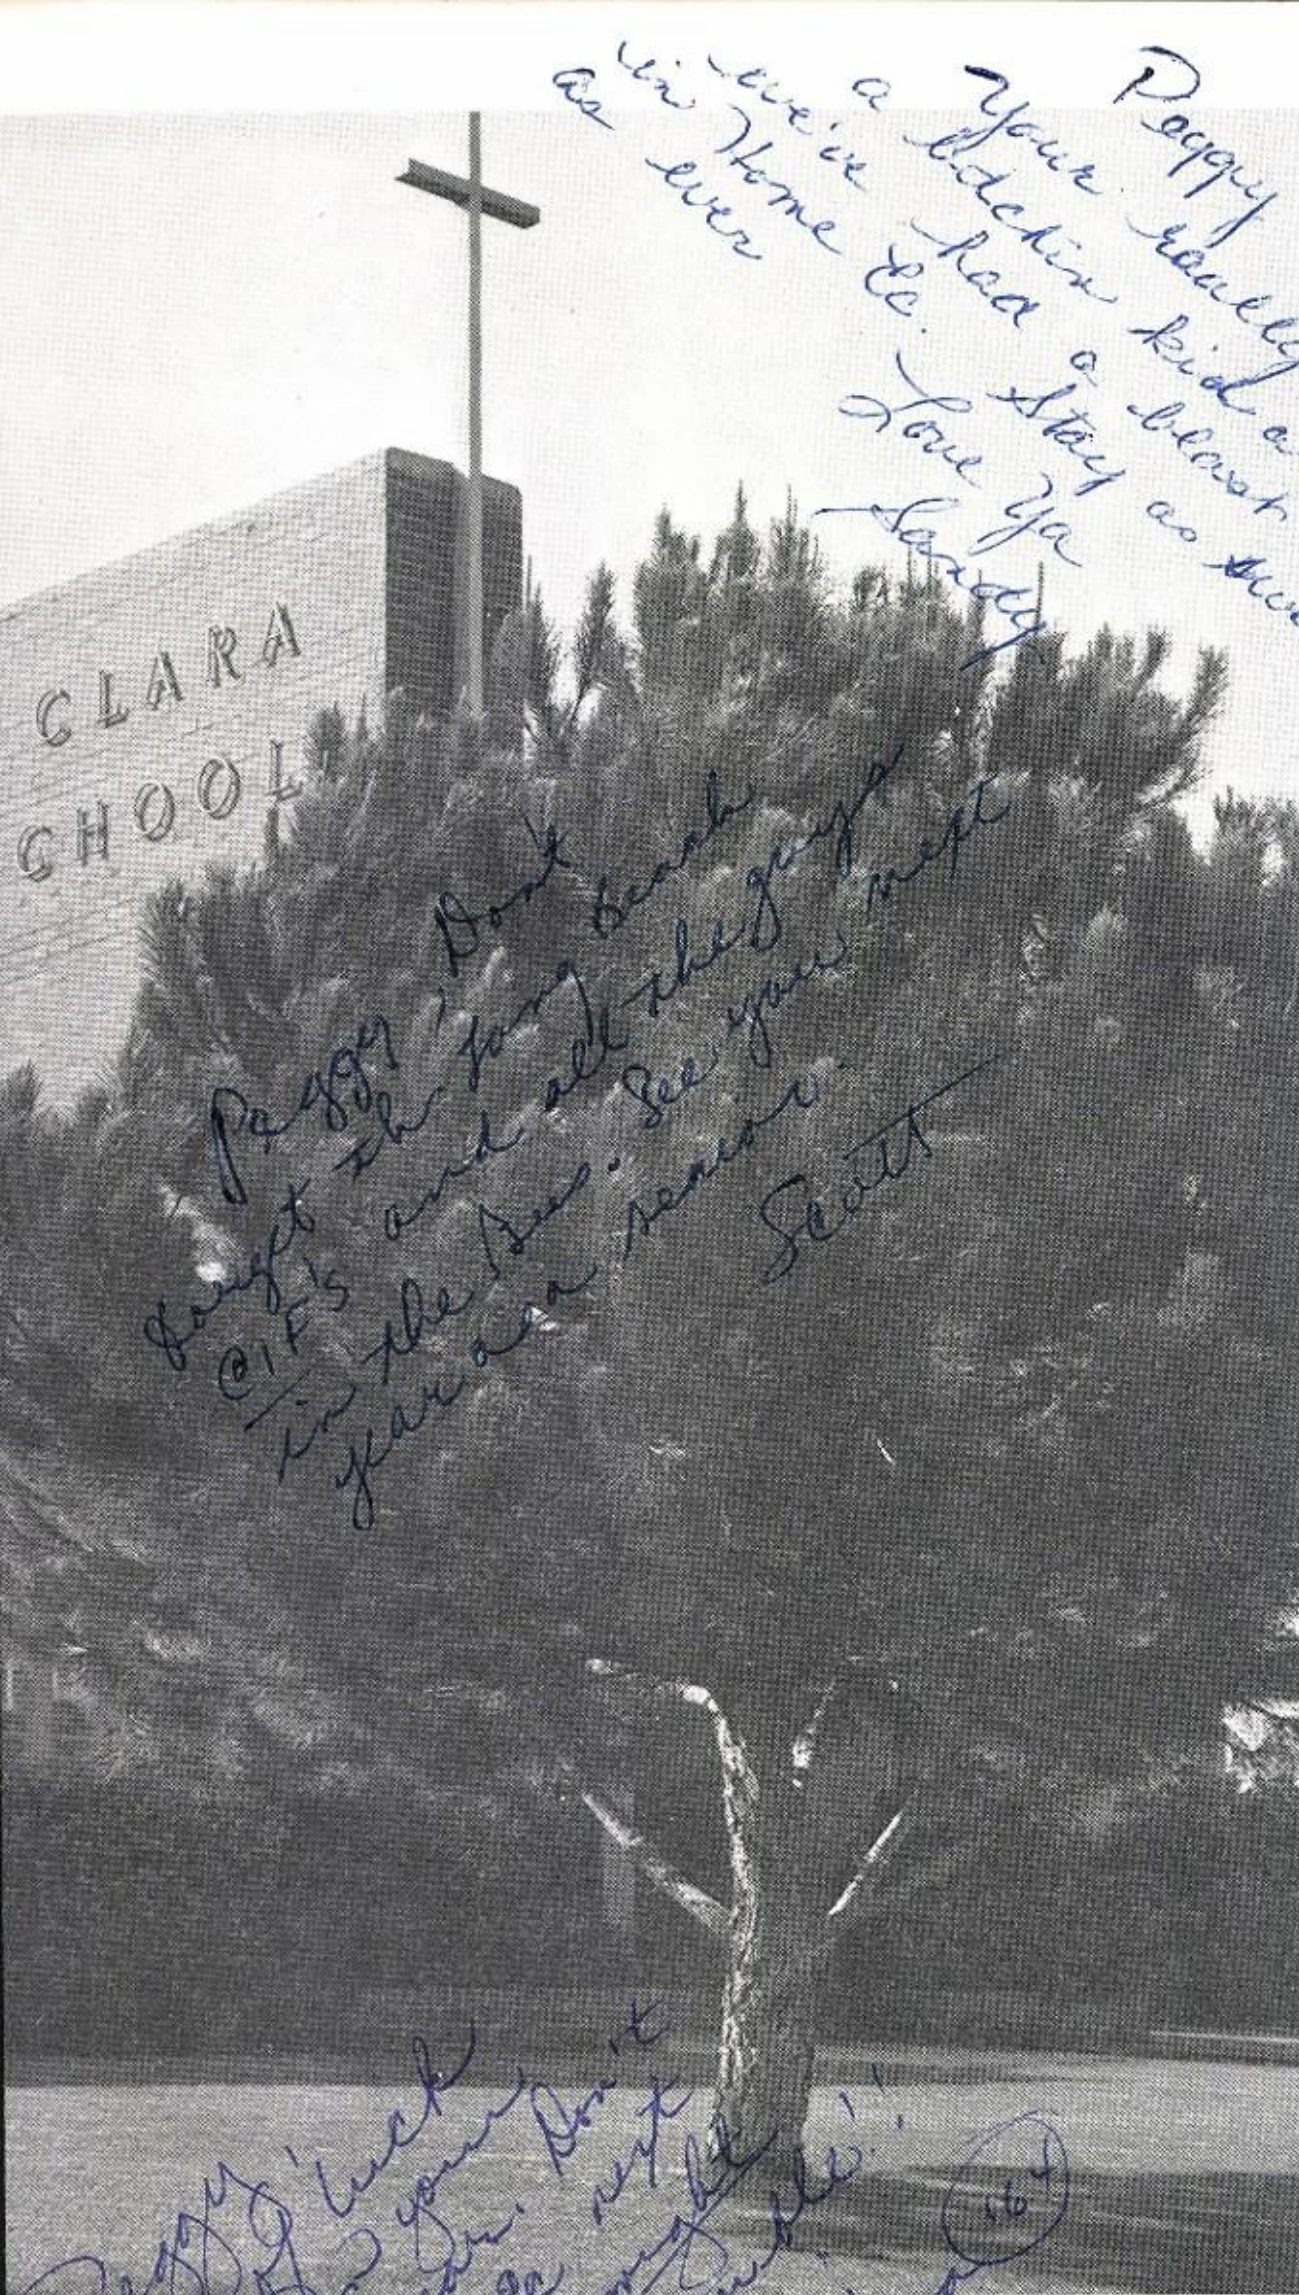

And now each goes his own way — perhaps some to do spectacular things, but most to do merely ordinary things: establishing a family, sharing the responsibility of citizenship, helping others, and bringing a bit of Christ to those who need Him. Few of us will be remembered long except by God, and so we go forth to work for Him.

We now set out for the remainder of our journey. The distance ahead of us is far. And each of us can say:

"The woods are lovely, dark and deep
But I have promises to keep
And miles to go before I sleep
Miles to go before I sleep."

Geggy,
To a girl who
has always been so nice

Monsignor Jacobs Contributes New, Distinctive Structure To Education

Brothers of Our Lady, Mother of Mercy meet Msgr. Jacobs at Santa Clara High School. They are: Brothers Morse, Emmanuel, Emeric (Bro. Superior), Msgr. Anthony J. Jacobs, Brothers Frederick and Ludwig.

My dear Seniors,

It is commonplace to say, that we live in a time of change. We all know this and we think particularly of the changes in science and technology, which differentiate our age from the past.

There are other changes, however, that set our time apart from former centuries and that would engage the attention of our forefathers, if they could look in on us today.

The late Pope John XXIII in his great Encyclical "Pacem in terris" says, that our time is characterized by three great changes. The working classes have been lifted, he says, to a status of freedom and equality with the employer in the socio-economic field. Women have achieved their rightful place in public life, especially in countries with Christian background. Finally many nations have gained their independence in recent years and the time is now in sight, that the old division between ruling nations and subject nations will no longer exist.

The Holy Father signalizes these changes in a spirit of optimism as being in harmony with the law of nature and the Spirit of Christ's teaching in the Gospel.

It has been said, that Pope John was too optimistic in his appraisal of modern life and not sufficiently realistic about the dangers that are imminent. Unbelief is on the increase, people say, de-Christianization of modern life is appalling and Communism is gaining ground. We stand on the brink, they shout. One foot further and we tumble into the precipice.

Such people present quite a vivid picture of the evils of our day, but they simultaneously belittle the natural law and the great social teachings that are implied in the Gospel. The real danger is not so much the evils that oppose us, but our own lack of confidence and appreciation of our means.

If you are getting a bit impatient with my dissertation at this point, you may say: "What has all this to do with my graduation?" Well, just this. Changes in life are bound to come and our time has more of them than almost any other. Some of these are bad, but others we must recognize as good. If these changes were just a blind and meaningless drift toward a dark future, we would have no reason to congratulate you today and look at your future with confidence and optimism.

But we do congratulate you and we do have confidence and allow ourselves a certain measure of optimism, because the changes that frighten us, are set against a back-drop of great and lasting truths and principles and laws, about which you have learned at Santa Clara.

When the Apostles saw the fury of the storm on lake Genesareth, they became frightened and forgot that Christ was guiding the boat. "Why are you fearful" said our Lord "O you of little faith."

Your future will be secure and your happiness assured, if your Christian faith and upright conduct guided by that faith, will lead you on.

Very sincerely yours,

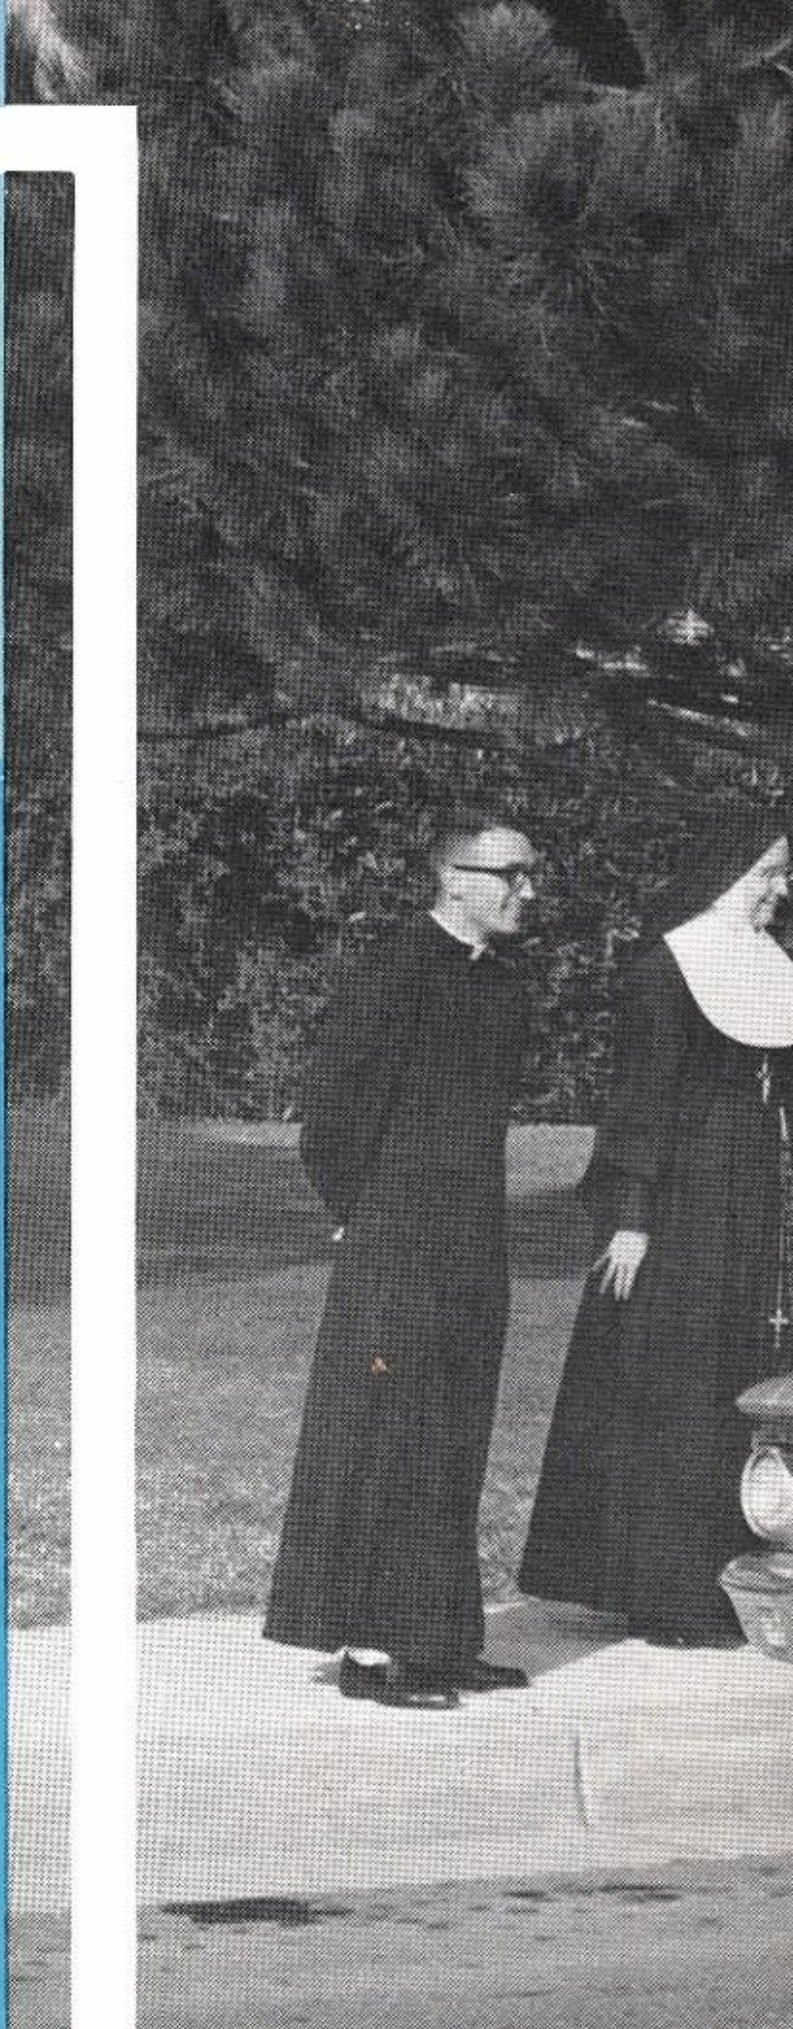

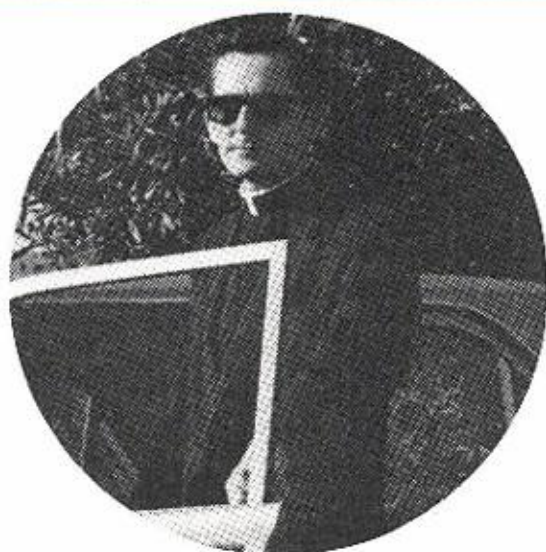

Anthony J. Jacobs. V. F.
Pastor

at Santa Clara.

Monsignor Jacobs welcomes Sister Mary Robert—new Vice-Principal—to Santa Clara.

"Thy Soul was like a Star, and dwelt apart;
Thou hadst a voice whose sound was like the sea;
Pure as the naked heavens, majestic, free,
So didst thou travel on life's common way,
In cheerful godliness; and yet thy heart
The lowliest duties on herself did lay."

Sister Mary Robert, Vice-Principal, shows dedicated interest in the spiritual, scholastic, and social development of each student.

Father O'Sullivan and Sister Mary Robert maintain our school's position at an accredited top of our educational system. They preside over all academic functions

and are responsible for all facets of activities at Santa Clara. Miss Lorraine Hall provides the secretarial assistance they need to efficiently organize each day.

DEDICATION

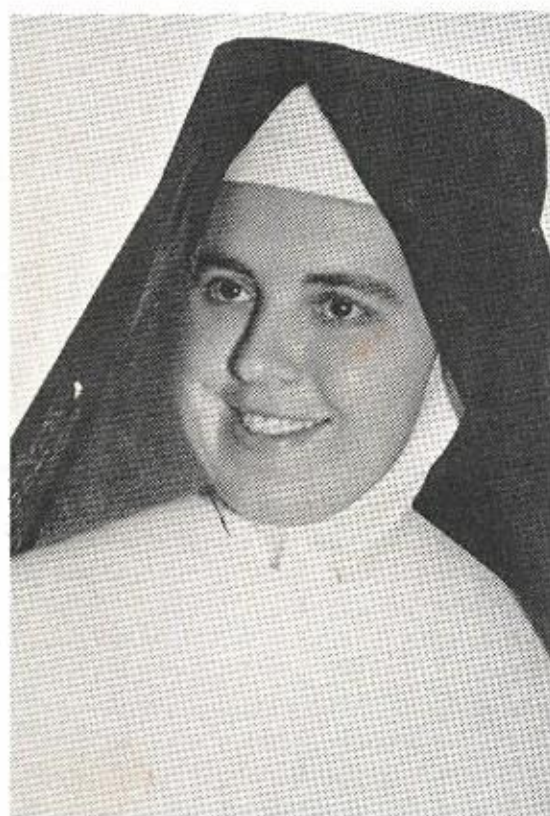

SISTER MARY MARK
Freshman Advisor
Sophomore Advisor

In order for a class to be successful it must have a central figure who keeps everything running smoothly. She must be willing to sacrifice time and effort for a seemingly thankless job. At Santa Clara in our past four years of growing and learning this figure has been, each year, OUR CLASS ADVISOR.

When we first came to Santa Clara, we were gullible but sincere freshmen who were infatuated with every facet of high school life. At first we appeared completely hopeless, but out of a confused and disorganized group Sister Mary Mark created a class. She taught this class to be active and organized participants in school affairs as well as students. With Sister's help we grew in spirit and knowledge.

As sophomores we were still under Sister Mary Mark's wing. Now we were "wise fools" but she knew how to handle us. We were a year older and still growing. Sister gave us incentive to work when there was no apparent appreciation for our labors. Our class unity strengthened as our respect for Sister Mary Mark, as an outstanding person, grew.

SISTER ADRIENNE CLARE
Junior Advisor

The traditional Junior Class Advisor, Sister Adrienne Clare, took over at the dawn of our junior year. As upperclassmen we thought we knew everything and became so interested in personal achievements that we lost our unity and sight of our goal. Sister pulled us through this difficult period in an understanding manner. No one could have asked for a more willing worker than she. We saw this when we began to organize for our homecoming float, our Junior-Senior Prom, and to select our cherished class rings. By the end of our junior year we had begun to appreciate the standards our past advisors had established for us. We saw that we did not know all we thought we knew. Now, having realized all this, we were prepared for our senior year.

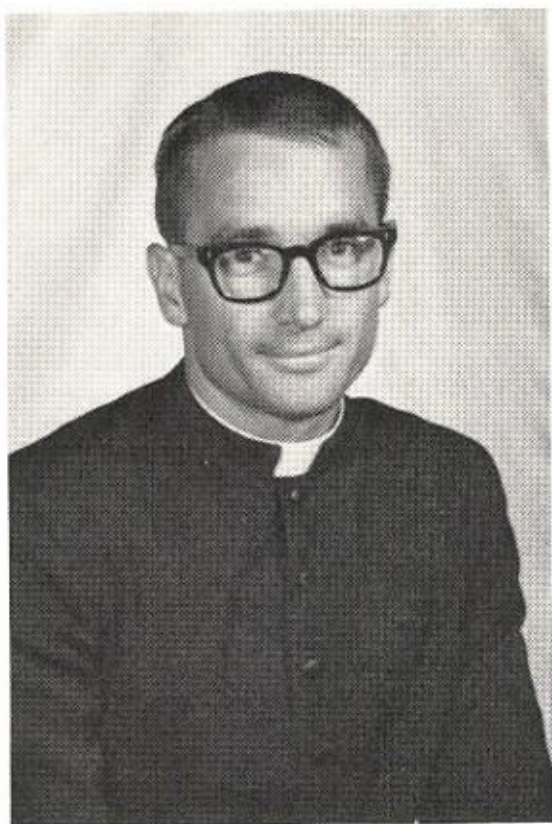

As freshmen we idolized seniors, as sophomores we believed ourselves superior to them, and as juniors we walked in their footsteps. Now we are seniors. The spotlight is on us and it is necessary to live up to our name. In some ways we achieved this, but it would have been impossible for us had it not been for Sister St. Bernard, our Senior Class Advisor. Without her reminders we would never have gotten through all the necessary requirements for college. As we look back on our senior year, we see Sister in the center of our activities, helping to organize and please our large class.

Our senior year has ended all too quickly. We have rushed through our last exams, seen our last Santa Clara football and basketball games, and attended our last rally and school dance. Now as we walk these halls for the last time, we happily look back over our four years at Santa Clara and gratefully acknowledge the work of the nucleus of our class, our advisors, who have made these successful years possible. We are deeply appreciative for these happy memories of Santa Clara—happier because of the work and understanding of Sister Mary Mark, Sister Adrienne Clare, and Sister St. Bernard.

Students, section teachers, and class advisor work together to develop an environment conducive to the preparation of all class members for future Catholic adult

life. Stewards of this environment for the Class of '64 are: Sister Donald Anne, Sister Mary Peter, Joseph Piña, Sister St. Bernard, Sister Marilyn Therese, and Mary Alice Huff.

RELIGION The Catholic student today at Santa Clara is endeavoring to become ecumenical in thought; however, as he travels through each spirited experience, he is conscious of the charisms which make the journey gallant. Catholic dogma presents the sign posts which make his direction clear; Holy Mass and the sacraments are his gifts from God which make him sure of the holiness of the Church, which is redemption — truly, a gallant journey.

"The Marks of The Church" was the subject of recent panel discussion in senior girls religion. Panel members are: Janna Wald (chairman), Judith Green, Kathleen Zachowski, and Virginia Cronin.

HISTORY—To the American this journey is a dedication to human freedom. Nations today are bound closer by a shrinking of space and time. The student of history must develop the essential qualities which undergird the vital relationship of every nation and every man. He must develop principles based on the past which will perpetuate love of God, country, and all mankind—the foundation on which a new world must be built if our civilization is to survive.

The bill concerned originated in the House and is sent to the Committee.

The FINE ARTS have a language of their own. The emotions and sympathies of peoples sound the depths of human feeling. It is to this tableau of culture that we look when all other efforts to understanding and communication have failed humanity. Their message is from the realm of the heart and the spirit.

JUNIORS—As the seniors prepare to leave this hallowed ground, the juniors—fear and caution thrown to the wind—brazenly make their way. Little do you realize that you have booked passage on an express bound for the bright lights of happy cities and the shadowy dreams of midnight stopovers which fall too frequently in your journey.

Aboard this train there is no time—just events. When after an adventurous year of events the eerie lights of that next station come into view, few will be the unpleasant moments; many will be the rewarding experiences and happy friendship that will endure until . . .

Fear not, dauntless Juniors. This realm is yours.

SOPHOMORES—The sophomore is the quiet passenger on our journey. He awaits the time when he can lead the cars of Santa Clara's perpetual train.

In his silence he makes an indelible mark on the C. I. F. history of our school. From his reserves he provides material for the Jayvees—that indispensable squadron which supplies athletes for our immortal varsity.

Wide-eyed he dons the dignity of the junior and senior and attends his first Christmas Ball; then, in faltering, cautious watchfulness he drives toward the status of an upper-classman.

In true sophomoric fashion Patricia Frazer, Lilith Washington, and John Arias visit the parking lot. Their journey is a gay one.

FRESHMEN—All aboard. You have embarked on a journey of unfamiliar terrain. Note the landmarks well—your stopover at the Freshman Initiation Dance, your layover at Homecoming while you built your Freshman float, and your first Student Body Meeting.

These are the places that add color to your trip—new friends, new experiences, personal growth. Because of these you travel together as the Class of '67—united in ideals, purpose, and scholastic achievement. As one—you bow to the seniors, cheer for the saints, and praise your Alma Mater.

ASSOCIATED STUDENT BODY

Decorated cars are an essential part of campaigning. (Right) Dennis Dwire and his campaign manager, Richard Thomas, are ready to start a busy day of vote getting. (Above) Linda Laubacher and Mary Alice Huff load the car with posters.

Dear Student Body—

As graduation time approaches, the S. C. Senior often stops to recollect (even if for only a few moments) all the wonderful memories he has secured during his past four years. Sometimes, too, he may stop to pass on to succeeding classes a word to inspire them through the magical years awaiting them.

Our days at Santa Clara are over. Now, only our successors have the opportunity to grasp some of the invaluable advantages offered here.

So, now I say to you—regard your years closely for the days here pass quickly. Before you actually realize it, your entire high school education is over.

Only then will this school hold you in its memory. Only then will you come to know that you have carved a little of yourself in her tradition and way of continuing. And only then may you take with you a foundation—the significant foundation of life you adopted or rejected from her strong educational system.

Remember, too, that what you leave as a class, effects S. C. also. Whether it be a hard earned CIF trophy or an invisible symbol of unity and class spirit—never forget S. C. is your school. Preserve her. Fight for her. Protect her good name always. And after this—preserve your ideals. Follow the memorable examples and high standards set by previous classes—and most of all, be forever gallant in your journey—onward.

Sincerely,

Dennis Dwire

The seniors are bound for **GREEN PASTURES** in their attempts at dramatic art. Under the competent direction of Sister St. Peter, this group of amateur actors demonstrated their talents as part of the St. Patrick's Day celebration at Santa Clara. Needless to say, there were weeks of preparation for the play which is based on the events of the Bible and given in Negro dialect. Regardless of the success of the play, no one received more satisfaction and enjoyment from it than the cast. The many hours of work were well worth the reward that that memory affords for the years to come.

It is fitting that every education should provide a knowledge not indicated merely by grades nor a diploma, alone; for, if all we have learned can be listed on a transcript, we have failed. For this reason, the organizations at Santa Clara—religious, civic, or cultural—have found a very important and necessary place in our school life.

If we were to think of our diploma as the key to success or wealth, we would not only be mistaken, but also we would soon be disappointed. The wisdom, which our education has given us, is not so much the amount of erudition we have acquired as the ability to use our book-learning.

At Santa Clara we learn to use, complement, and fulfill our education by taking part in extra-curricular activities—among these the Sodality. Members of the Sodality aim to foster ardent devotion to the Blessed Mother and seek, through this devotion, the sanctification of themselves and others.

Language and civic clubs lead the student to a better understanding of other countries and personal responsibilities. Through our campus organizations we find understanding, the possession of truth and love, knowledge, a grasping of those truths and loves, and wisdom—the vision of all things in God, as the First Cause and Last End.

SCHOLASTIC ACHIEVEMENTS

Scholastic honors, whether it be membership on the CSF, a CSF sealbearer, State Scholarship semi-finalist, or Bank of America award winner, represent months, often years, of hard work. While many of these students receive little recognition for their efforts, they do find great satisfaction in learning. The primary purpose of education is knowledge befitting the role in life one must follow. Those pictured may excel in any one of many fields but all have achieved the ideal of education—development in excellence and honesty the talent God gave them.

JUNIOR FLOAT

SOPHOMORE FLOAT

FRESHMAN FLOAT

Queen Barbara Burke and Jerry Tracy, Mr. Ugly, arrive at the dance.

The team breaks through the homecoming hoop.

HOMEcoming—Each year is filled with special events which we all eagerly await. They come and they pass all too quickly so that we are left in wonder at the good times we shared. But out of these events we draw from an infinite source of memories which partly shape our lives; from these we, also, learn. At these times we teach ourselves generosity, friendliness and the joy that comes from work well done. Out of this we build spirit and happiness. One such event is HOMEcoming.

Homecoming is many things. It is floats which are never quite finished until an hour before the game. It is an extra special rally, a band, a crazy hat day, a good cheering section, a spirited team and a great game. Homecoming means old friends and new ones for it brings alumnae back; it means a queen and her court, Mr. Uglys who really do not deserve the title, half-time activities, a Homecoming Dance at school, and Mel's afterwards. Homecoming means memories. We will never forget them. This is how we remember Homecoming '63.

Junior princess, Nancy Wheat—Sophomore princess, Sandra Hildenbrand—and Frosh princess, Kathleen Hays are about to meet their escorts.

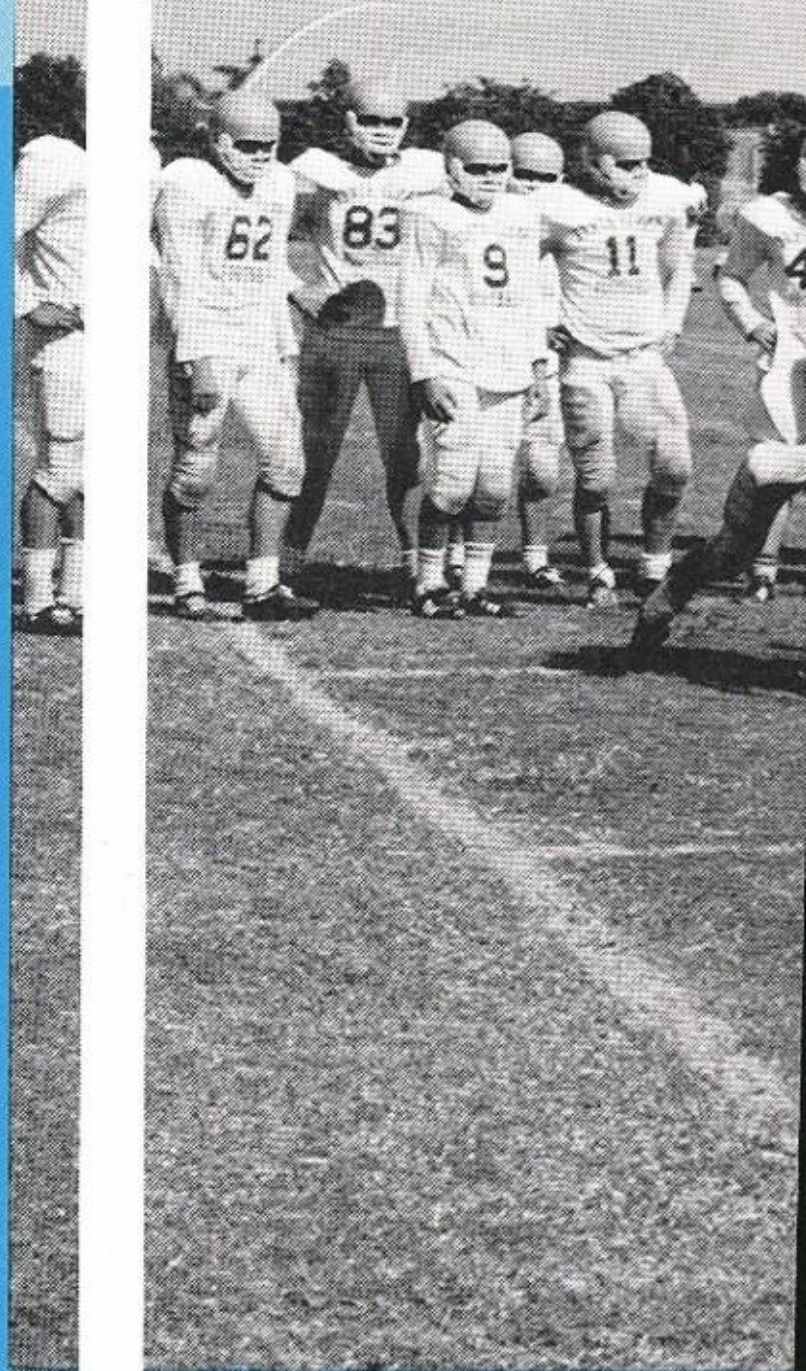

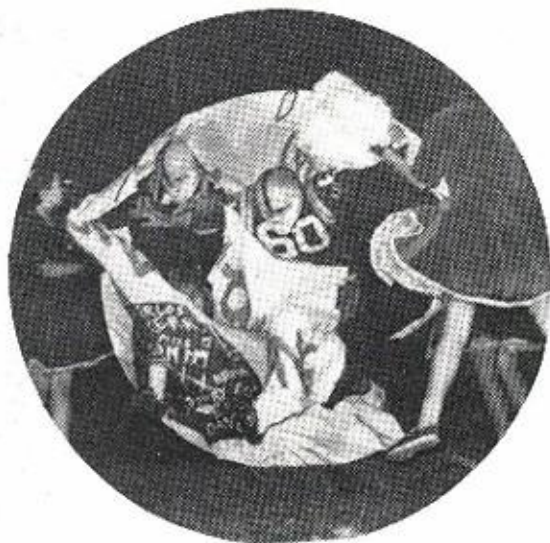

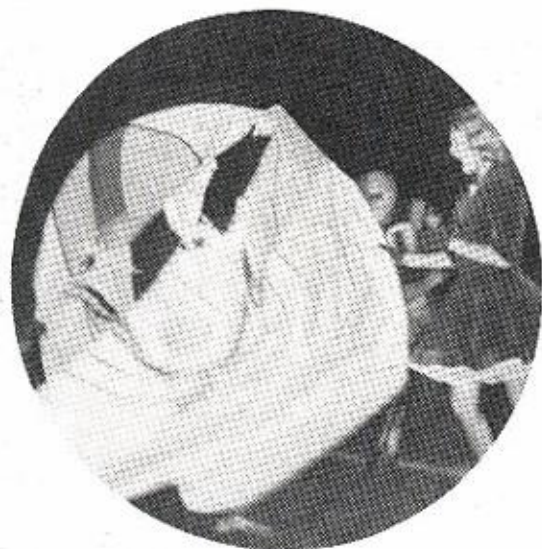

The Chev-els show the spirit of crazy-hat day as they play for the rally.

SENIOR FLOAT—Murphy, our mascot, did well by us for these four years.

"Yet here at least an earnest sense
Of human right and weal is shown
A hate of tyranny intense,
And hearty in its vehemence,
As if my brother's pain and sorrow were my own."

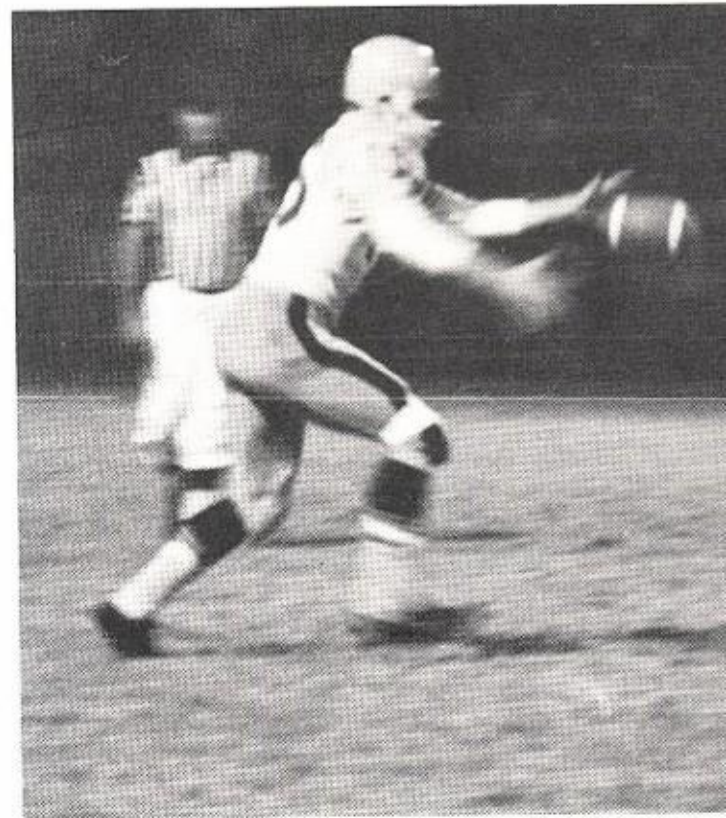

ATHLETICS

The Champs received these CIF patches along with gold footballs.

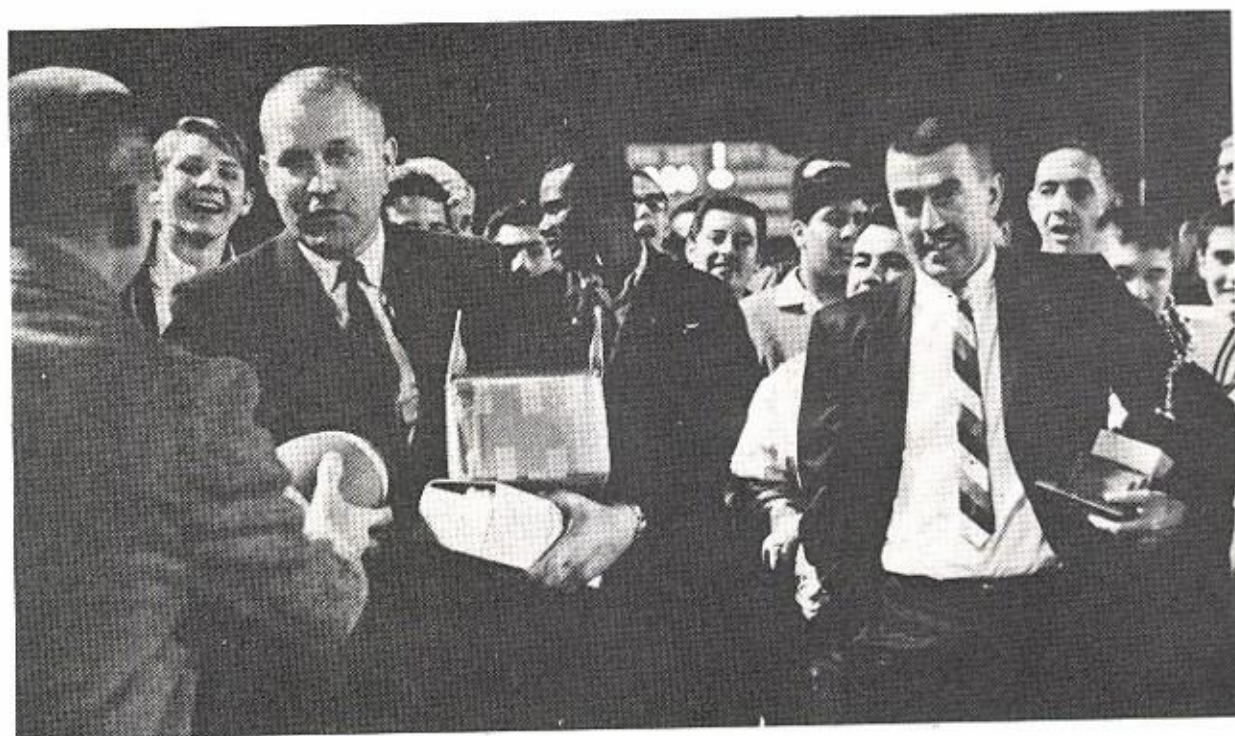

Saints go All the way —

First undisputed CIF title in county.

The Victors wave happily as they board the bus for the long ride home.

The team and fans look on as a happy Mr. Cvijanovich and Mr. Reardon receive the trophy and other awards.

Brian Muldoon, leading kicker in the county, sets Coachella back 40 yards.

"We did it! We won the CIF title," was the dressing room chant of Santa Clara's Saints after they ground out a 19-14 victory over Coachella Valley High's Arabs. They had just won the first California Interscholastic Federation football championship in the history of the school and in the history of the city of Oxnard.

The Indio High School gridiron was a scene of pandemonium as the gun sounded and ended the game. Most of the 3000 Santa Clara followers, who traveled 200 miles to see the game, poured onto the field and swarmed over their conquering heroes.

The championship trophy the Saints received will now complete the school's collection of CIF awards. They had already won CIF championships in basketball and baseball.

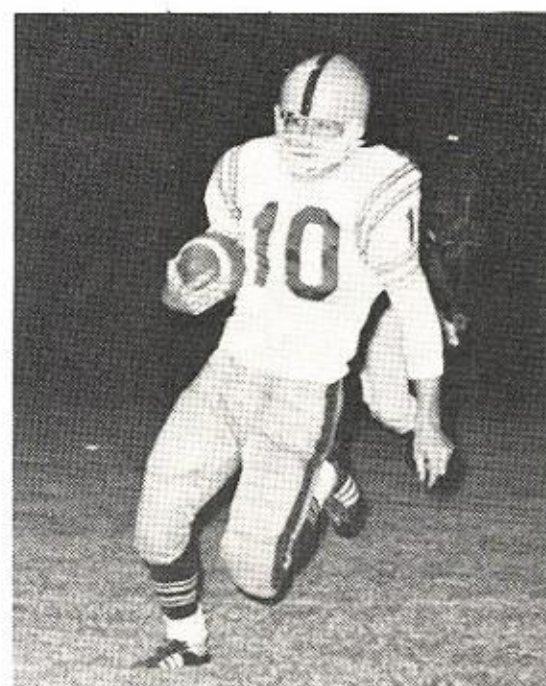

For the Champions the coaches—Cvijanovich and Reardon—had this commendation: "Effort and desire are the two basic ingredients for a Championship football team. Ability alone cannot bring out the Champion.

'Basic ingredients and formula for a championship are desire, pride, intestinal fortitude, and cooperation.

'The price was paid—they are champions. Coaches "C" and Reardon pay tribute to 'the finest group of young men we will ever have the opportunity to coach.'"

The Saints' Cheerleaders come expecting a victory and get their wish.

SC man tries to get away for a long run.

Members of the JV Team are: (First Row) Mike Parisian, Ted Holden, Joe Martinez, John Arias, Paul Parong, Freddie Rodriguez, George Garcia; (Row Two) Tony Macias, Mike Metcalf, Reg Valencia, Ken McDonald, Dennis Kehoe, Greg Marcotte, Bob Martinez, Tim Barrett, Loren Davis, Dick Monahan, John Machado,

Santa Ynez, Moorpark, Villanova, Carpinteria, and Bishop Garcia Diego tried in vain to score against the '63 JV's. In the last quarter of the last game—Nordhoff, hungry for victory, made a touchdown and conversion to win by one point.

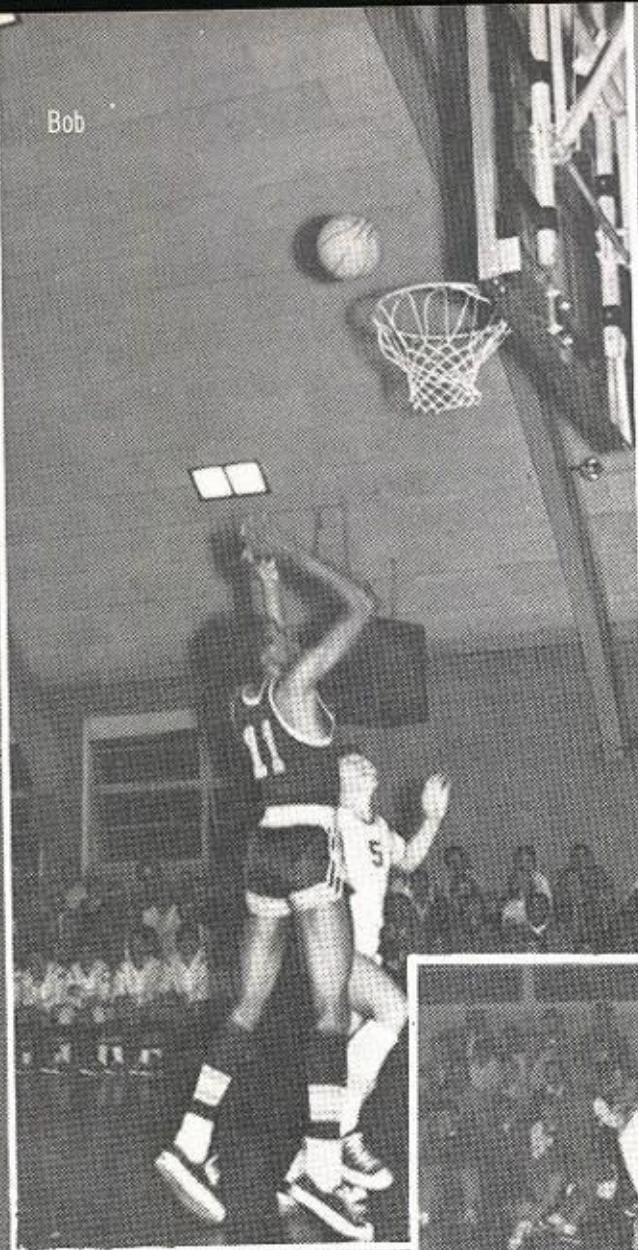

The first game of the season, with Thousand Oaks, a triple A school, was a loss with a score of 18-0. Coach Cartwright said, "Even though all their line from tackle to tackle was 200 lbs. or over, we should have won."

For the rest of the season the coaches worked the team in every angle of the game. It was because of this that the JV's were successful in their league games.

Ted Holden (back), Reg Valencia (line backer), Paul Parong (center), Jim Waters (tackle), Bob Martinez (back), John Arias (end), and John Machado (guard) went up to the Varsity for the last few games.

Our thanks to Coach Cartwright, Coach Robinson, and Coach Rich—and the whole team—for this hard earned victory.

SPORTS

P R I N G

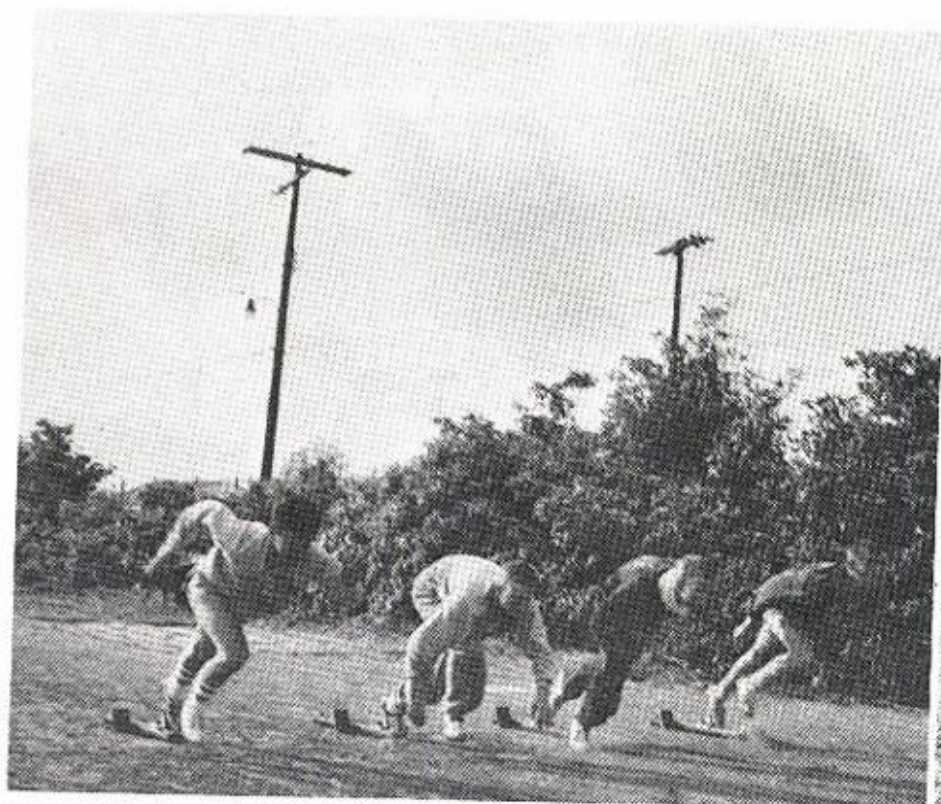

Spring sports at Santa Clara consist of varsity and junior varsity baseball, track, tennis and pole vaulting. While it is still too early to predict the final outcome of these teams, their early performances show great promise of a very successful season for all. For members of these teams, just as for football or basketball players, there is much work and training. In the process, character is formed along with a sound and healthy body. With the excitement of two C.I.F. victories already over, these teams may get little of the attention they deserve but just watch them turn in as good a season as their predecessors.

Santa Clara presents the J.V.'s: (row one) Mike Stehle, Bill Schindler, Mike Cuning, Loren Davis, Dick Oropeza, Pat Higgins; (row two) Mark Dyar, Joe Truxler, Richard Anguiano, John Weber, Reg Valencia, Tony San Miguel, Pete Orozco, Ed Loughman, Jack Hennesy, Tony Macias, Dennis Kehoe, and Mr. Cartwright — Coach.

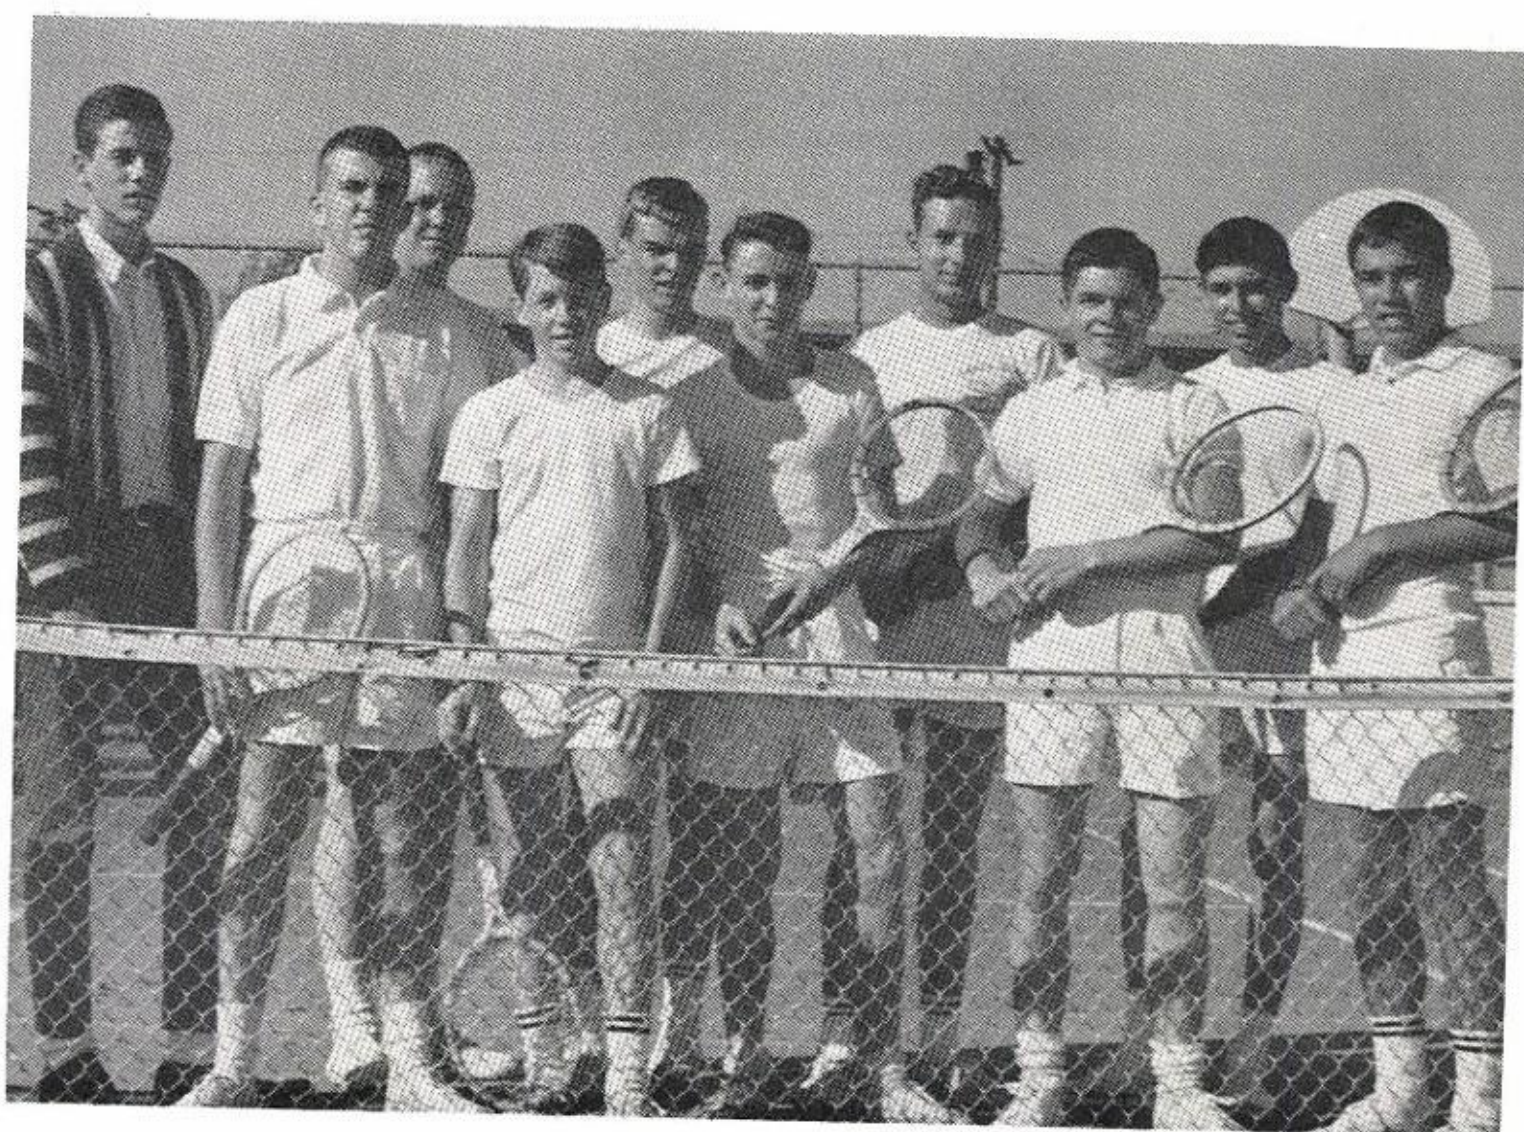

Fred Behm pole vaults.

Leaving stops are: Tom Smith, Bill Burke, Tom Ferjo, and Paul Larkin.

Members of the track team are: (row one) John Arias, Ron Clement, Tom Borchard, Richard McGrath, Dick Finch, Bob Flores, Lou Vicuna Dick Monahan, Don Kerr, Tom Smith; (row two) Chris Velasquez, John Corcoran, James Mendez, Rick Gianelli, Mike Kelly, Mark Goulet, Tim Davis; (row three) Fred Behm, Pat Whelan, Larry Powers, Dick Hendershot, Jack Salinas, Mike Burdullis, Greg Burly Munson, Tom Ferjo, Paul Larkin, Bill Burke, Sam Nelson, Dave Laubacher, Tom Doyle, Jay Gaynor, Carl Kleefisch, Mr. Reardon — Coach, Bruce Stewart, and Bruce Lenning.

RUTH from the CLASS OF '64

High school is just a small part of our lives, Ruth, but, it brings with it such wonderful times, such great friends, such superb opportunities for growing and learning that it is a very important time for all of us. In high school, as in all parts of life, the not-so-aggressive or seemingly less-important events are overshadowed by more paramount things. This year has brought immeasurable happiness to our lives, but not just because of the "big" things we have done. It is, rather, because of the little behind-the-scenes people and times that this year has been for us all a very special time.

You see here some of these behind-the-scenes times, Ruth. Isn't America wonderful?

Members of the G. A. A. Volleyball team—Patty Friedrich, Mary Ellen Rodriguez, Pauline Danell, Jean Edwards, Lilith Washington, Mary Watkins. Kneeling—Mary Teresa Beltran, Elaine Camuti, Yolanda Botello, Grace Shimabuku, and Caroline Ramirez.

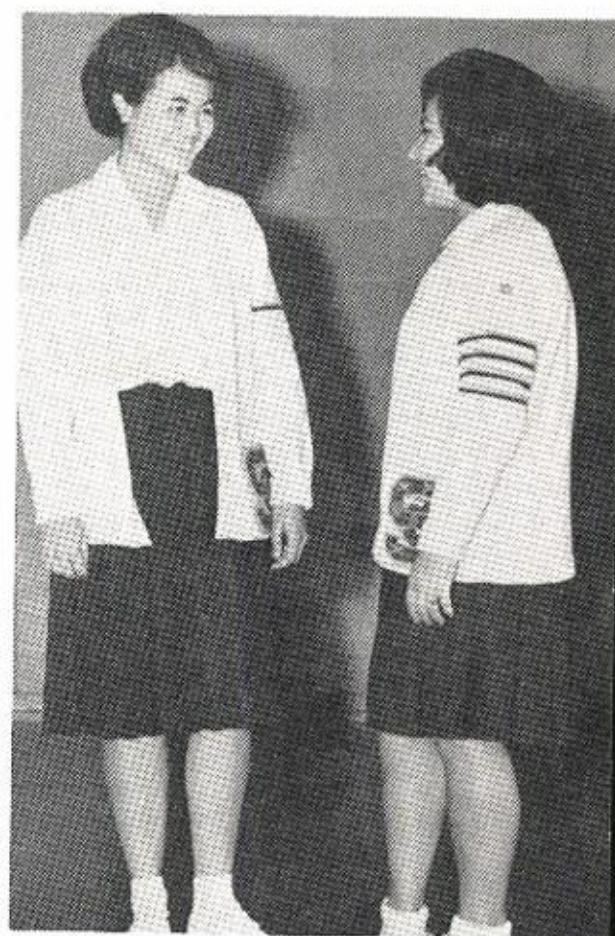

Mrs. Cowser moderates the Girls' Athletic Association at Santa Clara.

Basketball team members are: Kneeling—Joan Sharp. Standing—Sandra Hall, Ramona Martinez, Mary Ellen Rodriguez, Pauline Danell, Cindy Morales, Yolanda Botello, Gloria Camacho, Mary Teresa Beltran, Caroline Ramirez, Donna Cottry, Jean Edwards, and Mary Ellen Bourdon.

The Girls' Athletic Association, under the direction of Mrs. Cowser, greatly adds to the full development of Santa Clara girls. Members of the G. A. A. have acquired a keen sense of sportsmanship and spirit. While their games are always competitive, the girls have learned to play for health and fun rather than for the glory of victory.

The girls who belong to the G. A. A. often receive little recognition; but, to them, this is not important. They have found in their sports a gratifying and complete way to spend their leisure and, at the same time, have learned values upon which to base their decisions.

G. A. A. Officers—Grace Shimabuku and Caroline Ramirez—coordinate the functioning of their organization.

P. E. is fun and develops the feminine capacities of womanhood.

LET US REMEMBER

Remember us as freshmen—naive, active, and gay, with a goal in mind and a will to achieve it, caught up in the whirl of growing and the awe of high school things, beginning to build knowledge, friendship, and memories and "... dancing like sunshine on a rippling rill ..."

Remember us as sophomores—friendly, young, and spirited, committed to our ideals, awkwardly unsure of ourselves, aware of principles, dedicated to unity, made sure of responsibility, and discovering that "Knowledge comes, but wisdom lingers."

Remember us as juniors—jolly, laughing, growing people, full of fun and adventure, enchanted with the mysterious and the unknown, radio-active with zest and energy, thoughtful at times, and concerned with things of action, responsibility, and education.

Remember us as seniors—ambitious, overbearing, united, fun-loving people with a will and a way. But remember us, also, as thirsty for knowledge. It is for this reason that we share a new goal. We will always go on learning and giving, for this is the essence of living. Remember us and learn from us for "... knowledge exists to be imparted."

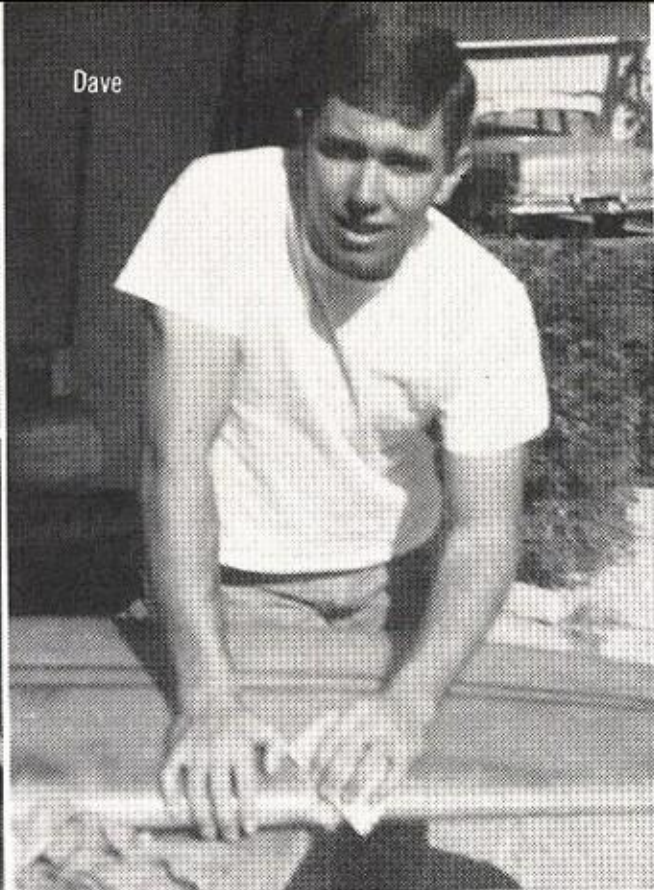

But for now, remember us this way—this is how we lived and learned, worked and played; these are our memories. These are our good times. This is a very special part of

This is the '64 Onward Staff, who for the last ten months has spent study halls, afternoons, evenings, and even holidays in putting this yearbook together for you. We present it to you, the graduating Class of 1964, so that you might always remember these wonderful times. We have captured moods, expressions, ideas, pranks and thoughts becoming reality. There are moments not pictured and moods not quite expressed, but you will remember them. This is a sampling of our growing, working, playing, maturing, and living. We are different people for our education, but only because of our educators. It is for this reason that we spent months upon months preparing this book—that we may always look back and say this is how it was. This is

OUR GALLANT JOURNEY

My dearest good buddy,
 I can't think of anything to say yet
 dingleberry, but after I get started
 things will come to me. I think that
 split last year sure was the best thing
 that could have ever happened to us 'cause
 otherwise we probably wouldn't have got
 to be best friends like we are don't you
 agree, gramps? We've done so many neat
 things together I can't even remember them
 all. But the these last couple of years
 have been the neatest years in my
 whole life with you for a friend.
 Remember all the diets we've gone on, the
 2-hour phone calls & that time you, Linda,
 & I made up that list of all the words we
 weren't going to say anymore? I think
 Linda was the only one who put any money
 in that jar. How about that time when
 Mr. Reardon made us stand in front
 of the room & talk? We even created a
 scandal (remember L.B.?) when we talk
 on the phone every nite after seeing
 each other at school that day. My dad
 laughs at us because he doesn't see how
 we can find anything to talk about. But
 the reason we do that is because that's the
 only chance I get to tell you stuff that I
 wouldn't tell anyone but my best
 cratch. Things about C., D., & C. (get it?)
 If it wasn't for you I probably wouldn't
 learn how to drive a stick shift until
 I get to be about 80 years old at the rate
 I'm going now. We've had our
 arguments but we haven't really
 had any big fights, (have we?) I
 hope you'll finally find the day for
 you to make up your mind on
 something. I hope we can go to the beach
 this summer a lot & also go surfing,
 don't you? If you don't come up to stay
 with me at Sompo I'll have a hard
 time. I also hope that when I start
 out in this new school I'll be able to find
 someone like you to hang around with
 because I wouldn't like any other type
 of friend. Love you always & don't forget
 me. Slausonia Turdonic
